**Message\*:** Good afternoon - McHenry County was recently contacted by Eolian Energy about a proposed Battery Energy Storage System project they are looking to bring to the area. Part of the property in question falls within the Prairie Grove village limits. We are meeting with the team from Eolian next Monday, September 23rd at 12PM at our office here in Woodstock - 667 Ware Road. It was suggested by MCEDC that someone from Prairie Grove may want to attend to be a part of the conversation and offer any input on development of this project going forward. Would someone from your Planning and Zoning department be interested in joining us for this meeting? Please feel free to reach out to me with any questions. Thank you!
